Ontario Nature
720 Bathurst Street
Toronto, ON M5S 2R4

Dear Dr. Sonya Richmond,

I would like to offer our sincere congratulations on successfully completing an epic undertaking and express our heartfelt appreciation for your leadership and dedication to promoting bird conservation across Canada. Ontario Nature appreciates your work connecting people to nature and promoting the conservation of migratory birds.

Fostering a connection with nature and community engagement is critical. Your #Hike4Birds on the Trans Canada Trail from the Atlantic to the Pacific is an inspiration to beginner and expert birders alike. Your efforts to educate, engage and reconnect youth with nature through birds and community science is critical for the future of conservation in Ontario and beyond.

Sincerely,

John Hassell
Director of Communications and Engagement, Editor
