Hi Sonya,

We heard from your dad that you and Sean have completed the trek across Canada! And that you might like some words of encouragement. Congratulations from all of us. I was one of the Nature NL volunteers who set off with you from Cape Spear. I'm really glad to know that you have continued your project and outreach, and reached so many people via your presentations.

Best of luck on the next segment of your trip. After it's wrapped up, perhaps we can be in touch again about another public talk for Nature NL - online and easy to do from anywhere - so that we can hear how it all went.

Thanks

Laura

Past President, Nature NL
